School:	School of Education
Course Title:	INFORMATION TECHNOLOGY CURRICULUM 1
Course ID:	EDBED3033
Credit Points:	15.00
Prerequisite(s):	(Pass in 3 IT Courses)
Co-requisite(s):	Nil
Exclusion(s):	(EDDDE3012)
ASCED:	070301

Description of the Course :

This course is the first in a sequence of two that is designed to enable undergraduate pre-service teachers to develop critical understandings of the importance of information technologies in relation to school curriculum policies and frameworks in secondary school Year 7 to 10 contexts. It will enable pre-service teachers to utilise information technology in a range of learning settings. They will design curriculum and examine and implement a range of teaching approaches deriving from emerging technologies. Pre-service teachers will develop their understandings of ethical and social issues involved in using ICT in schools and be able to evaluate the place of Information Technology curriculum in different school contexts.

Grade Scheme: Graded (HD, D, C, etc.)

Learning Outcomes:

Knowledge:

- K1.** Examine critical understandings of the importance of information technologies in relation to school curriculum policies and frameworks in secondary school Year 7 10 contexts.
- K2.** Examine the implications of using Information Technology in a range of learning settings.

- K3.** Analyse ethical, social and political issues related to the use of technology.
- K4.** Explore how literacy and numeracy can be developed in Information Technology education.

Skills:

- S1.** Design units of work and assessment approaches incorporating information technologies in line with current curriculum for students in secondary school settings.
- S2.** Employ a repertoire of approaches to ensure positive learning outcomes for students using new technologies.
- S3.** Model and articulate problem-solving approaches when using information technologies.
- S4.** Examine strategies to enable the development of Information Technology planning in schools.
- S5.** Apply literacy and numeracy teaching strategies in the Information Technology area.

Application of knowledge and skills:

- A1.** Design a curriculum unit applying planning skills, content knowledge, pedagogical understandings, technologies, assessment strategies and policy knowledge.
- A2.** Participate in regular online forums demonstrating understandings of issues related to information technology and related curriculum policies and share new learning and resources with others.
- A3.** Practical demonstration of an ICT learning experience to peers.

Course Content:

Topics to be covered

- The Information Technology revolution and its impact on learning, teaching and assessment.
- The role of Information Technology across secondary school Year 7-10 curriculum.
- Explore relevant issues and the strategies available to support the safe and ethical use of ICT in learning and teaching.
- Issues associated with the implementation of Information Technology in the curriculum.
- Selecting applications for use in Information Technology classrooms.
- Designing and implementing solutions to Information Technology problems.
- Uses of Information Technology in a range of contemporary social, economic and political contexts.
- Developing effective classroom environments to support the effective teaching and learning of Information Technology for all students.
- Examining curriculum designs and assessment approaches in contemporary policies and frameworks as well as school experiences.
- Skill acquisition across a range of contemporary Information Technology applications.

Values:

- V1.** Explore the ethical and social issues involved in using and working with ICT.
- V2.** Evaluate the place of Information Technology curriculum in different school systems.
- V3.** Open to change and critical and creative thinking.

Graduate Attributes

The Federation University FedUni graduate attributes (GA) are entrenched in the Higher Education Graduate Attributes Policy (LT1228). FedUni graduates develop these graduate attributes through their engagement in explicit learning and teaching and assessment tasks that are embedded in all FedUni programs. Graduate attribute attainment typically follows an incremental development process mapped through program progression. **One or more graduate attributes must be evident in the specified learning outcomes**

and assessment for each FedUni course, and all attributes must be directly assessed in each program

Graduate attribute and descriptor		Development and acquisition of GAs in the course			
		Learning Outcomes (KSA)	Code A. Direct B. Indirect N/A Not addressed	Assessment task (AT#)	Code A. Certain B. Likely C. Possible N/A Not likely
GA 1 Thinkers	Our graduates are curious, reflective and critical. Able to analyse the world in a way that generates valued insights, they are change makers seeking and creating new solutions.	K3	A	AT1	A
GA 2 Innovators	Our graduates have ideas and are able to realise their dreams. They think and act creatively to achieve and inspire positive change.	S1, A1	A	AT1	A
GA 3 Citizens	Our graduates engage in socially and culturally appropriate ways to advance individual, community and global well-being. They are socially and environmentally aware, acting ethically, equitably and compassionately.	K1, K2	A	AT1	A
GA 4 Communicators	Our graduates create, exchange, impart and convey information, ideas, and concepts effectively. They are respectful, inclusive and empathetic towards their audience, and express thoughts, feelings and information in ways that help others to understand.	S3, S5, A2	A	AT1, AT2	A
GA 5 Leaders	Our graduates display and promote positive behaviours, and aspire to make a difference. They act with integrity, are receptive to alternatives and foster sustainable and resilient practices.	S2, A3	A	AT3	B
