

Course Outline (Higher Education)

School:	School of Education
Course Title:	MATHEMATICS CURRICULUM 2
Course ID:	EDBED3128
Credit Points:	15.00
Prerequisite(s):	(EDBED3028 or EDDDE3001)
Co-requisite(s):	Nil
Exclusion(s):	(EDBED3019 and EDDDE3101)
ASCED:	070301

Description of the Course :

This course follows on from Mathematics Curriculum 1 and focuses on curriculum and pedagogy in the Mathematics specialist teaching area for under-graduate pre-service teachers. It examines the congruence between pedagogy, curriculum and assessment. Pre-service teachers will be required to explore specific issues relating to current practice in the teaching of Mathematics in Years 7-10. They will be required to design and critically evaluate learning and assessment tasks, self-evaluate pedagogy, and conduct research in to key issues related to learning Mathematics in school. A particular focus will be the differentiation of learning of Mathematics.

Grade Scheme: Graded (HD, D, C, etc.)

Supplementary Assessment: Yes

Where supplementary assessment is available a student must have failed overall in the course but gained a final mark of 45 per cent or above and submitted all major assessment tasks.

Program Level:

Level of course in Program	AQF Level of Program					
	5	6	7	8	9	10
Introductory	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Intermediate	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Advanced	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Learning Outcomes:

Knowledge:

- K1.** Demonstrate an understanding of inclusive strategies for Mathematics at a secondary level.
- K2.** Develop an understanding about processes of acceleration and remediation in Mathematics.
- K3.** Demonstrate understanding of contemporary curriculum documents and guidelines relevant to teaching Mathematics in years 7-10.
- K4.** Understand the congruence between pedagogy, curriculum and assessment.
- K5.** Demonstrate understanding of effective teaching strategies for Mathematics at the secondary level.

Skills:

- S1.** Write lesson plans and activities appropriate to a particular level of mathematics.
- S2.** Research and present historical and contemporary issues in Mathematics education.
- S3.** Identify and examine specific issues relating to current practice in the teaching of Mathematics in Years 7-10.
- S4.** Design forms of assessment consistent with curriculum documents.
- S5.** Design learning that caters for a range of abilities and interests.

Application of knowledge and skills:

- A1.** Produce, present, examine and evaluate an assessment task related to a real world mathematical problem.
- A2.** Design, teach and self-evaluate a lesson plan based around the theme of acceleration or remediation.
- A3.** Research and write a position paper related to a key issue in the teaching and learning of Mathematics.

Course Content:

Topics to be covered

- Developing content for diverse learners.
- Examine a range of effective teaching strategies in mathematics including group work.
- Linking mathematics curriculum content to mathematical activities.
- Making links to previous mathematical knowledge.
- Organising content into effective learning sequences.
- Identifying strategies to support inclusion in mathematics.
- Engagement strategies for students of all abilities.
- Differentiation of activities to cater for students of all abilities
- Using diagnostic assessment to determine groupings within classes.
- Giving feedback to students and responding to feedback from colleagues.
- Equity issues faced by Australian mathematics educators.

Values:

- V1.** Develop an understanding of the nature and place of Mathematics as a critical filter for further education and training.
- V2.** Consider the inclusiveness or otherwise of Mathematics and the values we model and explicitly teach.
- V3.** Value the place of mathematics and Mathematics education in society.
- V4.** Enjoy teaching and learning mathematics.

Graduate Attributes

The Federation University FedUni graduate attributes (GA) are entrenched in the Higher Education Graduate Attributes Policy (LT1228). FedUni graduates develop these graduate attributes through their engagement in explicit learning and teaching and assessment tasks that are embedded in all FedUni programs. Graduate attribute attainment typically follows an incremental development process mapped through program progression. **One or more graduate attributes must be evident in the specified learning outcomes and assessment for each FedUni course, and all attributes must be directly assessed in each program**

Graduate attribute and descriptor		Development and acquisition of GAs in the course			
		Learning Outcomes (KSA)	Code A. Direct B. Indirect N/A Not addressed	Assessment task (AT#)	Code A. Certain B. Likely C. Possible N/A Not likely
GA 1 Thinkers	Our graduates are curious, reflective and critical. Able to analyse the world in a way that generates valued insights, they are change makers seeking and creating new solutions.	K3; K5; S1; S4; A1	A	AT1	A
GA 2 Innovators	Our graduates have ideas and are able to realise their dreams. They think and act creatively to achieve and inspire positive change.	K3; S2; A3	A	AT3	B
GA 3 Citizens	Our graduates engage in socially and culturally appropriate ways to advance individual, community and global well-being. They are socially and environmentally aware, acting ethically, equitably and compassionately.	K1; K4; S5; A2	A	AT2	B
GA 4 Communicators	Our graduates create, exchange, impart and convey information, ideas, and concepts effectively. They are respectful, inclusive and empathetic towards their audience, and express thoughts, feelings and information in ways that help others to understand.	K2; S1; A2	A	AT2	B
GA 5 Leaders	Our graduates display and promote positive behaviours, and aspire to make a difference. They act with integrity, are receptive to alternatives and foster sustainable and resilient practices.	K1; K5; S5; A2	B	AT2	C

Learning Task and Assessment:

Learning Outcomes Assessed	Learning Tasks	Assessment Type	Weighting
K1, K3, K5 S1, S4, S5 A1 APST 2.1, 4.2, 5.1	Develop and create an assessment task for a particular year audience. This assessment task will have a real world focus and will be further refined after feedback.	Classroom Resource	30-40%
K2, K3, K4 S1, S5 A2 APST 1.5, 2.2, 2.3, 3.2, 3.3, 4.1	Self-Study in Mathematics: Research, design, present and self-evaluate a learning sequence based around the theme of acceleration or remediation.	Lesson plan	30-40%
K3 S2, S3 A3 APST 4.1	Position paper related to a key issue in the teaching and learning of Mathematics. The audience for this position paper is a School Council. This position paper will examine contemporary research and make recommendations that fit with research.	Academic Essay.	20-30%
