Description of the Course:

This course supports the second year professional experience in the Bachelor of Education in which students complete 15 days in the education setting specified below for their particular program. Students are required to complete the activities outlined in Professional Experience Assessment Report (Form A). This will take place in collaboration with their school-based Mentor Teacher in the education setting in which the placement occurs (as indicated below). The students will also document their professional learning in Professional Experience Pre Service Teacher Learning Log (Form B) supported by their assigned University Mentor.

This course introduces Pre-Service Teachers (PSTs) to the individual and collective understandings of the education professional and prepares them for their first professional experience placement. It frames learning within the context of developing practices and knowledge associated with becoming an active and engaged professional teacher. Verbal and non-verbal communication strategies to support student learning and engagement are examined. Effective communication strategies to work effectively with the professional learning community and parents/carers are considered. Drawing on the relevant legislative policies, PSTs consider their ethical responsibility to students and describe strategies that support student safety in educational settings.

Alignment to the Minimum Co-Operative Standards (MiCS)

The Minimum Co-Operative Standards (MiCS) are an integral part of the Co-Operative University Model. Seven criteria inform the MiCS alignment at a program level. Although courses must undertake MiCS mapping, there is NO expectation that courses will meet all seven criteria. The criteria are as follows:

1. Co-design with industry and students
2. Co-develop with industry and students
3. Co-deliver with industry
4. FedTASK alignment
5. Workplace learning and career preparation
6. Authentic assessment
7. Industry-link/Industry facing experience

MiCS program level reporting highlights how each program embraces the principals and practices associated with the Co-Operative Model. Evidence of program alignment with the MiCS, can be captured in the Program Modification Form.

MICS Mapping has been undertaken for this course No
