Description of the Course :

This course is designed to enable Pre-Service Teachers (PSTs) to ensure a safe and healthy environment for all young children and staff and will introduce PSTs to the importance of providing responsive and sensitive care in the development and learning of young children. The course will focus on physical care routines as well as the provision of physically, socioemotionally and culturally safe environments including the mental health of young children. Multicultural and Aboriginal and Torres Strait Islander perspectives will be explored, particularly in relation to developing family and community partnerships that enhance children's wellbeing. PSTs will be prepared to identify and respond to common children's allergies, illnesses and emergencies and how to administer and store medications according to regulatory frameworks. Nutrition, as an important factor in overall health and wellbeing will be explored to enable PSTs to understand the importance of a nutritionally balanced diet, principles of hygiene in the preparation and handling of meals and snacks and menu planning that meets dietary requirements and the needs of children from diverse cultural and religious backgrounds. PSTs will examine appropriate regulatory documents and reflect on the role of the teacher in ensuring compliance including mandatory reporting of child abuse and neglect.

Graduate Attributes

The Federation University FedUni graduate attributes (GA) are entrenched in the Higher Education Graduate Attributes Policy (LT1228). FedUni graduates develop these graduate attributes through their engagement in explicit learning and teaching and assessment tasks that are embedded in all FedUni programs. Graduate attribute attainment typically follows an incremental development process mapped through program progression. **One or more graduate attributes must be evident in the specified learning outcomes and assessment for each FedUni course, and all attributes must be directly assessed in each program**

Graduate attribute and descriptor		Development and acquisition of GAs in the course
