## Description of the Course:

This course is the third in a suite of courses designed to enable pre-service teachers (PSTs) to critically attend to, participate in and experience, the many facets of professional engagement in teaching. PSTs create and experience a professional learning community where learning is enhanced through social processes, dialogue and personal reflection. Communication will take place on campus and in online environments. In small groups guided by a learning mentor, PSTs will critically examine teaching and learning experiences in professional placement settings and make connections to prior learning. They will focus on bigger picture issues such as the emotional work of teachers, the changing culture of schooling and school improvement issues as well as their own personal questions, investigations and insights. They will also learn how to apply for teaching positions.

This course supports PSTs professional experience in the Master of Teaching program in which students complete 35 days in an education setting. Students are required to complete the activities outlined in Professional Experience Assessment Report (Form A). This will take place in collaboration with their school-based Mentor Teacher in the education setting in which the placement occurs (as indicated below). The students will also document their professional learning in Professional Experience Pre Service Teacher Learning Log (Form B) supported by their assigned University Mentor.

**Grade Scheme:** Graded (HD, D, C, P, MF, F, XF)

### Alignment to the Minimum Co-Operative Standards (MiCS)

The Minimum Co-Operative Standards (MiCS) are an integral part of the Co-Operative University Model. Seven criteria inform the MiCS alignment at a program level. Although courses must undertake MiCS mapping, there is NO expectation that courses will meet all seven criteria. The criteria are as follows:

1. Co-design with industry and students
2. Co-develop with industry and students
3. Co-deliver with industry
4. FedTASK alignment
5. Workplace learning and career preparation

6. Authentic assessment
7. Industry-link/Industry facing experience

MiCS program level reporting highlights how each program embraces the principals and practices associated with the Co-Operative Model. Evidence of program alignment with the MiCS, can be captured in the Program Modification Form.

**MICS Mapping has been undertaken for this course** No
