## Description of the Course:

The course uses the 'Boyer' framework of scholarship (Boyer, 1996), introducing theoretical, reflective and critical understandings of vocational education and training (VET) and VET practice, and developing research techniques. The Boyer framework of scholarship has four components: Discovery, Integration, Application and Teaching. The course begins with applying existing research on curriculum and assessment to the VET field of practice, and the integration of pieces of scholarship and research in a field to develop new understanding. It then examines literature on VET teachers' development and practice, examining the use of new knowledge to improve professionalism and teaching. The course ends with the 'Discovery component': students carry out an original research project. Students undertake all stages of conceptualising, planning, implementing and writing up a small research project in VET or in students' industry or discipline area.

**Grade Scheme:** Graded (HD, D, C, P, MF, F, XF)

## Program Level:

| Level of course in Program | AQF Level of Program     |                                     |                          |                          |                          |                          |
|----------------------------|--------------------------|-------------------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
|                            | 5                        | 6                                   | 7                        | 8                        | 9                        | 10                       |

## Learning Outcomes:

**Knowledge:**

- K1.** Explore major curriculum and learning theories relevant to VET.
- K2.** Understand and critique competency-based training and assessment.
- K3.** Use assessment theory to understand current VET assessment practice
- K4.** Explore major issues affecting quality in assessment in VET in Australia.
- K5.** Consider and apply ethical issues in VET business practice.
- K6.** Use Boyer's framework of four types of scholarship to consider applied research in VET
- K7.** Critique the concept of communities of practice.
- K8.** Explore teacher development and professional development theories.
- K9.** Investigate careers theory in relation to personal development.

**Skills:**

- S1.** Use curriculum theory in planning programs.
- S2.** Identify business ethics issues and develop strategies for addressing them.
- S3.** Use assessment theory in writing assessment tools
- S4.** Use appropriate research techniques for small research projects
- S5.** Scan the external environment for changes affecting VET organisations.
- S6.** Identify and progress personal development.
- S7.** Create professional networks within and beyond the VET provider.

**Application of knowledge and skills:**

- A1.** Apply knowledge of features of VET and curriculum theory to the challenge of addressing needs of different learning groups.
- A2.** Apply assessment quality issues to improve own assessment practices with learners.
- A3.** Apply an ethical framework to developing business for Registered Training Organisations.
- A4.** Apply research techniques to applied research in VET and in relevant industry or discipline area
- A5.** Apply skills for career-long development as a VET practitioner.

**Course Content:**

Topics include:

- The theoretical basis for curriculum design, development, delivery and assessment of VET programs.
- Competency-based training and assessment
- Commercial delivery of VET, appropriate use of government funding and the application of business ethics to these matters.
- Applied research in the VET sector
- Professional development as a VET practitioner and strategies for further development

**FEDTASKS**

Federation University Federation recognises that students require key transferable employability skills to prepare them for their future workplace and society. FEDTASKS (**T**ransferable **A**tttributes **S**kills and **K**nowledge) provide a targeted focus on five key transferable Attributes, Skills, and Knowledge that are embedded within curriculum, developed gradually towards successful measures and interlinked with cross-discipline and Co-

operative Learning opportunities. *One or more FEDTASK, transferable Attributes, Skills or Knowledge must be evident in the specified learning outcomes and assessment for each FedUni course, and all must be directly assessed in each program.*

| FEDTASK attribute and descriptor              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | Development and acquisition of FEDTASKS in the course |                       |
