## Description of the Course:

Studio Arts Practice 5 is a course that enables students to undertake independent research and further develop conceptual, technical and aesthetic skills and knowledge. Linking theory and practice, students will devise a program of study tailored to their own personal artistic vision in order to produce a discernibly individual body of artworks within their chosen field. This course provides advanced practical and theoretical studies and supports students in conceiving, planning, and executing a major program of works. The research element and learning will be supported by visits to art galleries, artists' studios and talks, and exhibition spaces.
