

Unit Outline (Higher Education)

Institute / School:	Institute of Innovation, Science & Sustainability
Unit Title:	CREATIVE AND CRITICAL THINKING
Unit ID:	BUMGT6978
Credit Points:	15.00
Prerequisite(s):	Nil
Co-requisite(s):	Nil
Exclusion(s):	Nil
ASCED:	080399

Description of the Unit:

Twenty first century leaders need to be flexible, knowledgeable and be able to inspire people to think creatively and critically about the myriad of issues that confront them daily. This unit provides its students with knowledge, tools, experience, and support so they can become constructive and reflective agents of change. A sustained focus on individual and organisational learning and the need to apply critical thinking, creative thinking, and reflective practice allows students to develop clarity and confidence to make profound changes in their own learning and in their work places.

Grade Scheme: Graded (HD, D, C, P, MF, F, XF)

Work Experience:

No work experience: Student is not undertaking work experience in industry.

Placement Component: No

Supplementary Assessment: Yes

Where supplementary assessment is available a student must have failed overall in the Unit but gained a final mark of 45 per cent or above, has completed all major assessment tasks (including all sub-components where a task has multiple parts) as specified in the Unit Description and is not eligible for any other form of supplementary assessment

Advanced						

Learning Outcomes:

Knowledge:

- K1.** Identify ways to confront complex, messy, ambiguous problems, make new connections, with a creative, innovative and critical set of lenses
- K2.** Determine the elements that foster a creative culture and what distinguishes creative organisations
- K3.** Identify, interrogate and challenge the implementation of thinking tools in an organisation
- K4.** Distinguish between various sources of information, selecting appropriate authorities to support arguments
- K5.** Identify important issues in overcoming resistance to change and implementing new ideas in organisations
- K6.** understand and differentiate between the technical and adaptive aspects of a challenge

Skills:

- S1.** Recognise the need for critical and creative problem solving techniques in the contemporary business environment
- S2.** Generate alternative ideas, practices, and solutions that are unique and effective
- S3.** Reframe problems, making new connections, and challenging assumptions
- S4.** Investigate problem solving tools and techniques to create solutions
- S5.** Critically evaluate how both creative and critical thinking skills articulate with the scholarly literature

Application of knowledge and skills:

- A1.** Encourage team members to identify and overcome barriers to creativity and innovation in their journey to becoming thought/change leaders
- A2.** Implement a methodology that overcomes barriers to innovative thinking
- A3.** Instigate design thinking processes and tools to drive innovation and meet specific challenges
- A4.** Use tools and techniques developed in the unit to evaluate how critical thinking may contribute to elements of the sustainable Development Goals (SDG's)
- A5.** Apply critical thinking to improve reflective practice

Unit Content:

Topics may include:

- Creativity, problem solving, and strategy
- Creative writing for Business
- Understanding creativity and critical thinking
- Structuring problems
