

Course Outline (Higher Education)

Institute / School:	Institute of Innovation, Science & Sustainability
Course Title:	PRIVACY AND TRUST
Course ID:	ITECH7620
Credit Points:	15.00
Prerequisite(s):	ITECH7611
Co-requisite(s):	Nil
Exclusion(s):	Nil
ASCED:	029901

Description of the Course:

The impacts of cyber-attacks and hacking can have enormous negative impacts on organisations, society, and civilians in terms of financial loss and threats to privacy and security. In this increasingly digital world, trust, transparency, and accountability are key tenets for the safeguarding of sensitive information when sharing digital data and services. This course will cover fundamental laws and principles governing information privacy and security as well as cyber risk assessment, mitigation, and management. We will also cover computational principles, methods, and mechanisms related to trust and privacy for safeguarding sensitive applications and services. You will also gain knowledge of digital trust, sharing the responsibility across connected devices and services, and understanding the types of partnerships that enable them.

Grade Scheme: Graded (HD, D, C, P, MF, F, XF)

Placement Component: No

Supplementary Assessment: Yes

Where supplementary assessment is available a student must have failed overall in the course but gained a final mark of 45 per cent or above and submitted all major assessment tasks.

Program Level:

Level of course in Program	AQF Level of Program					
	5	6	7	8	9	10
Introductory	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Level of course in Program	AQF Level of Program					
	5	6	7	8	9	10
Intermediate	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Advanced	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Learning Outcomes:

Knowledge:

- K1.** Explain the rights of data subjects and how they have developed over time in response to technological evolution
- K2.** Apply privacy-preserving laws and privacy management to real-life cases
- K3.** Analyse key elements associated with the trust factor and privacy-preserving issues arising when personal data is exported to third parties

Skills:

- S1.** Identify, mitigate and/or resolve privacy risks in a project
- S2.** Apply electronic tools in preserving privacy and maintaining trust in IT project management
- S3.** Prevent the trouble and loss of productivity that is associated with data loss
- S4.** Audit various privacy threats involved in modern communication systems

Application of knowledge and skills:

- A1.** Evaluate secure and trustworthy systems in complex and distributed computing environments
- A2.** Work with clients to investigate, identify and communicate privacy and trust issues and challenges in modern communication systems in line with privacy and trust policies and standards
- A3.** Research emerging trends in the privacy and trust domains

Course Content:

Topics may include:

Topics may include:

- Fundamental concepts of privacy and trust
- Privacy and trust concerns in different contexts
- Data protection principles and cyber risk assessment
- Fundamental services to create usable solutions
- Evaluate the usability of privacy tools
- Legal grounds for lawful processing of personal data
- Rights of data subjects during cross-border data transfer
- E-Privacy regime
- Trust, transparency, and accountability
- Privacy engineering
- Role of ethics and affinity privacy
- Privacy and trust management in electronic systems and asset security
- Privacy and trust in modern communication technologies
- Standards and regulations for privacy and trust in IoT and cyber-physical systems
- Role of emerging technologies, e.g., machine learning, blockchain, fuzzy logic, and game theory, in privacy and trust

FEDTASKS

Federation University Federation recognises that students require key transferable employability skills to prepare them for their future workplace and society. FEDTASKS (**T**ransferable **A**tttributes **S**kills and **K**nowledge) provide a targeted focus on five key transferable Attributes, Skills, and Knowledge that are embedded within curriculum, developed gradually towards successful measures and interlinked with cross-discipline and Co-operative Learning opportunities. *One or more FEDTASK, transferable Attributes, Skills or Knowledge must be evident in the specified learning outcomes and assessment for each FedUni course, and all must be directly assessed in each program.*

FEDTASK attribute and descriptor		Development and acquisition of FEDTASKS in the course	
		Learning Outcomes (KSA)	Assessment task (AT#)
FEDTASK 1 Interpersonal	Students at this level will demonstrate an advanced ability in a range of contexts to effectively communicate, interact and work with others both individually and in groups. Students will be required to display high level skills in-person and/or online in: <ul style="list-style-type: none"> • Using and demonstrating a high level of verbal and non-verbal communication • Demonstrating a mastery of listening for meaning and influencing via active listening • Demonstrating and showing empathy for others • High order skills in negotiating and conflict resolution skills • Demonstrating mastery of working respectfully in cross-cultural and diverse teams. 	Not applicable	Not applicable
FEDTASK 2 Leadership	Students at this level will demonstrate a mastery in professional skills and behaviours in leading others. <ul style="list-style-type: none"> • Creating and sustaining a collegial environment • Demonstrating a high level of self-awareness and the ability to self-reflect and justify decisions • Inspiring and initiating opportunities to lead others • Making informed professional decisions • Demonstrating initiative in new professional situations 	Not applicable	Not applicable
FEDTASK 3 Critical Thinking and Creativity	Students at this level will demonstrate high level skills in working in complexity and ambiguity using the imagination to create new ideas. Students will be required to display skills in: <ul style="list-style-type: none"> • Reflecting critically to generate and consider complex ideas and concepts at an abstract level • Analysing complex and abstract ideas, concepts and information • Communicate alternative perspectives to justify complex ideas • Demonstrate a mastery of challenging conventional thinking to clarify complex concepts • Forming creative solutions in problem solving to new situations for further learning 	A1	AT1

FEDTASK attribute and descriptor		Development and acquisition of FEDTASKS in the course	
		Learning Outcomes (KSA)	Assessment task (AT#)
FEDTASK 4 Digital Literacy	Students at this level will demonstrate the ability to work competently across a wide range of tools, platforms and applications to achieve a range of tasks. Students will be required to display skills in: <ul style="list-style-type: none"> • Mastering, exploring, evaluating, managing, curating, organising and sharing digital information professionally • Collating, managing complex data, accessing and using digital data securely • Receiving and responding professionally to messages in a range of professional digital media • Contributing competently and professionally to digital teams and working groups • Participating at a high level in digital learning opportunities 	S2	AT1, AT2
FEDTASK 5 sustainable and Ethical Mindset	Students at this level will demonstrate a mastery of considering and assessing the consequences and impact of ideas and actions in enacting professional ethical and sustainable decisions. Students will be required to display skills in: <ul style="list-style-type: none"> • Demonstrate informed judgment making that considers the impact of devising complex solutions in ambiguous global economic environmental and societal contexts • Professionally committing to the promulgation of social responsibility • Demonstrate the ability to evaluate ethical, socially responsible and/or sustainable challenges and generating and articulating responses • Communicating lifelong, life-wide and life-deep learning to be open to the diverse professional others • Generating, leading and implementing required actions to foster sustainability in their professional and personal life. 	Not applicable	Not applicable

Learning Task and Assessment:

Learning Outcomes Assessed	Assessment Tasks	Assessment Type	Weighting
K1-K3, S1-S4, A1-A3	The tasks will develop skills in the analysis and practical application of the contents introduced in this course.	Assignments and/or technical reports	70% - 80%
K1-K3, S1-S4, A1-A3	Study course and online material, and summarise theoretical aspects of the course.	Examination and/or use-case assessment	20% - 30%
