

# Unit Outline (Higher Education)

<b>Institute / School:</b>	Institute of Innovation, Science & Sustainability
<b>Unit Title:</b>	Pathophysiology 2
<b>Unit ID:</b>	SCMED2011
<b>Credit Points:</b>	15.00
<b>Prerequisite(s):</b>	(SCBIO1020) OR (HEALT1121 and HEALT1122)
<b>Co-requisite(s):</b>	Nil
<b>Exclusion(s):</b>	Nil
<b>ASCED:</b>	019901

## Description of the Unit:

This unit consolidates on basic anatomy and physiology from first year biology units and explores these in more detail with an emphasis on disease processes and disease states in each system. How and why normal structure and function are disrupted is examined in detail with particular focus on common diseases. Abnormal anatomy and physiology are explored from histological levels through to gross levels, exploring disease processes that lead to how and why any given set of symptoms for a particular disease occur. This unit focuses on the endocrine system, digestive system, cardiovascular system, respiratory system, renal system and integument.

**Grade Scheme:** Graded (HD, D, C, P, MF, F, XF)

## Work Experience:

No work experience

**Placement Component:** No

**Supplementary Assessment:** Yes

Where supplementary assessment is available a student must have failed overall in the Unit but gained a final mark of 45 per cent or above, has completed all major assessment tasks (including all sub-components where a task has multiple parts) as specified in the Unit Description and is not eligible for any other form of supplementary assessment.

**Course Level:**

Level of Unit in Course	AQF Level of Course					
	5	6	7	8	9	10
Introductory	■	■	■	■	■	■
Intermediate	■	■	✓	■	■	■
Advanced	■	■	■	■	■	■

### Learning Outcomes:

#### Knowledge:

- K1.** Identify and explain the basic disease processes in human systems.
- K2.** Articulate the changes in the anatomy and physiology of various pathophysiological states.
- K3.** Compare and contrast normal bodily function with pathological dysfunction.

#### Skills:

- S1.** Apply anatomical knowledge to the examination and dissection of vertebrate tissues.
- S2.** Apply the concepts and theories of physiology to understand the normal role of vertebrate structures and their associated disease processes
- S3.** Relate disease states to their associated symptoms by providing physiological links.
- S4.** Make inferences and conclusions on laboratory observations and report on these.

#### Application of knowledge and skills:

- A1.** Apply anatomy and physiology knowledge to the evaluation and comparison of vertebrate specimens in normal and pathological states.
- A2.** Critically analyse case study information to make inferences and conclusions about disease states and symptoms

#### Unit Content:

This unit uses a systems approach to provide advanced learning in anatomy and physiology to build on basic knowledge obtained in first year. Understanding of the normal structure and function of the human body are consolidated and then extended to include examples of disease pathology affecting the major organ systems. This unit continues the exploration of vertebrate anatomy, physiology and pathophysiology from SCMED2010 Pathophysiology 1.

- Endocrine system
- Digestive system
- Cardiovascular system
- Renal system
- Respiratory System
- Integumentary system

#### FEDTASKS

Federation University Federation recognises that students require key transferable employability skills to prepare them for their future workplace and society. FEDTASKS (**T**ransferable **A**tttributes **S**kills and **K**nowledge) provide a targeted focus on five key transferable Attributes, Skills, and Knowledge that are embedded within curriculum, developed gradually towards successful measures and interlinked with cross-discipline and Co-operative Learning opportunities. *One or more FEDTASK, transferable Attributes, Skills or Knowledge must be*

evident in the specified learning outcomes and assessment for each FedUni Unit, and all must be directly assessed in each Course.

FEDTASK attribute and descriptor		Development and acquisition of FEDTASKS in the Unit	
		Learning Outcomes (KSA)	Assessment task (AT#)
FEDTASK 1 Interpersonal	Students will demonstrate the ability to effectively communicate, inter-act and work with others both individually and in groups. Students will be required to display skills in-person and/or online in: <ul style="list-style-type: none"> <li>Using effective verbal and non-verbal communication</li> <li>Listening for meaning and influencing via active listening</li> <li>Showing empathy for others</li> <li>Negotiating and demonstrating conflict resolution skills</li> <li>Working respectfully in cross-cultural and diverse teams.</li> </ul>	Not applicable	Not applicable
FEDTASK 2 Leadership	Students will demonstrate the ability to apply professional skills and behaviours in leading others. Students will be required to display skills in: <ul style="list-style-type: none"> <li>Creating a collegial environment</li> <li>Showing self-awareness and the ability to self-reflect</li> <li>Inspiring and convincing others</li> <li>Making informed decisions</li> <li>Displaying initiative</li> </ul>	Not applicable	Not applicable
FEDTASK 3 Critical Thinking and Creativity	Students will demonstrate an ability to work in complexity and ambiguity using the imagination to create new ideas. Students will be required to display skills in: <ul style="list-style-type: none"> <li>Reflecting critically</li> <li>Evaluating ideas, concepts and information</li> <li>Considering alternative perspectives to refine ideas</li> <li>Challenging conventional thinking to clarify concepts</li> <li>Forming creative solutions in problem solving.</li> </ul>	Not applicable	Not applicable
FEDTASK 4 Digital Literacy	Students will demonstrate the ability to work fluently across a range of tools, platforms and applications to achieve a range of tasks. Students will be required to display skills in: <ul style="list-style-type: none"> <li>Finding, evaluating, managing, curating, organising and sharing digital information</li> <li>Collating, managing, accessing and using digital data securely</li> <li>Receiving and responding to messages in a range of digital media</li> <li>Contributing actively to digital teams and working groups</li> <li>Participating in and benefiting from digital learning opportunities.</li> </ul>	Not applicable	Not applicable

FEDTASK attribute and descriptor		Development and acquisition of FEDTASKS in the Unit	
		Learning Outcomes (KSA)	Assessment task (AT#)
FEDTASK 5 Sustainable and Ethical Mindset	Students will demonstrate the ability to consider and assess the consequences and impact of ideas and actions in enacting ethical and sustainable decisions. Students will be required to display skills in: <ul style="list-style-type: none"> <li>• Making informed judgments that consider the impact of devising solutions in global economic environmental and societal contexts</li> <li>• Committing to social responsibility as a professional and a citizen</li> <li>• Evaluating ethical, socially responsible and/or sustainable challenges and generating and articulating responses</li> <li>• Embracing lifelong, life-wide and life-deep learning to be open to diverse others</li> <li>• Implementing required actions to foster sustainability in their professional and personal life.</li> </ul>	Not applicable	Not applicable

**Learning Task and Assessment:**

Learning Outcomes Assessed	Assessment Tasks	Assessment Type	Weighting
K1, K2, K3, S1, S2, S3, S4, A1, A2	Students will complete oral and written assessment during practical activities addressing their competency and comprehension of the content being explored.	Practical activities with oral and written tasks	50-60%
K1, K2, K3, S3, A1	Students will complete regular quizzes throughout semester testing their knowledge of the unit content at the end of each content section.	Quizzes	5-10%
K1, K2, K3, S3, S4, A1, A2	Students will be tested on their knowledge of the unit material at the end of semester.	End of Semester Tests	30-40%
